¹The Affordable Care Act (P.L. 111-148) enacted in 2010 designates the primary care medicine and dentistry line distinctly, and includes dental public health programs with the new oral health line. For FY 2011, the percent change for each new line is calculated versus the FY 2010 comparable level provided in HRSA's FY 2011 Operating Plan.

²The total for the public health and preventive medicine program includes \$20 million from the Prevention and Public Health Fund in FY 2011, and \$15 million in the FY 2012 budget request.

³In FY 2010, the president's budget designated \$17.5 million within an "Allied Health" line for state dental health improvement grants authorized under §340G of the Public Health Service Act. Funding for §340G programs, shown here under the "Oral Health" line, is now included in the amount proposed for Oral Health Training.
