The Doctor of Philosophy (Ph.D.) in Gerontology is an interdisciplinary research degree emphasizing social and behavioral gerontology. The program prepares students for academic and research centers in gerontology, as well as for professional careers in private and public institutions and agencies providing services to older individuals.

The Dual-Title degree is an option available to students who have first been admitted to a doctoral program at KU (e.g., Communication Studies, Psychology, Sociology, etc.). The dual-title degree allows the pursuit of a single degree that incorporates study within a traditional discipline and training in an interdisciplinary field. The student is awarded a doctoral degree with both titles identified on the diploma (e.g., Ph.D. in Psychology and Gerontology).
As Mayor, it is my pleasure to welcome you to Boston for the 2018 Gerontological Society of America Annual Scientific Meeting. We are honored to host this important event and hope you enjoy all that Boston has to offer.

I am proud to call Boston an Age-Friendly city. We know that our older residents helped make Boston the great city it is today. Together, we crafted our Age-Friendly Action Plan to build upon our successes and make Boston an even better place to live and age.

One year into our Action Plan, we launched an interactive restroom map of all city-owned public restrooms. We elevated the voices of older adults through our pilot Senior Civic Academy, a five day class where older residents learned how to become better advocates. We created and launched a training for city staff, including our first responders, to help them understand the needs of aging residents. And we’ve launched an Age- and Dementia-Friendly business designation with our local Main Streets that encourages local businesses to make their spaces and services inclusive.

Our work would not be possible without the diverse voices from across Boston’s neighborhoods. In your time in our city, I hope you experience the many viewpoints, ages, and cultures that make Boston an inclusive, age-friendly place for all.

Sincerely,

Martin J. Walsh
Mayor of Boston
Earn a graduate degree from the USC Leonard Davis School of Gerontology

The USC Leonard Davis School of Gerontology is the oldest school dedicated to aging research in the nation. We offer the most comprehensive selection of gerontology degree programs found anywhere and we are a pioneer in distance learning education. Our mission is to increase the quality of life for all older adults via research, service and education.

Master’s and Certificate Programs

• Master of Science in Gerontology  
• Master of Arts in Gerontology  
• Master of Aging Services Management  
• Master of Long Term Care Administration  
• Graduate Certificate in Gerontology

PhD Programs

• Doctor of Philosophy in Gerontology  
• Doctor of Philosophy in Biology of Aging

All of our Master’s programs are available in their entirety online to distance learning students and residentially for those that are able to attend classes on campus. We also award $500,000 to students in scholarships annually. Both of our PhD programs are fully funded.

ANNUAL MEETING APP

For the most up-to-date program information, to search the full schedule, view exhibitor and sponsor information, and access maps of the meeting space, download the GSA 2018 Annual Scientific Meeting mobile app for smartphones and tablets. The app is available for download by scanning the QR code or in the Apple App Store; search for GSA 2018. Android users, please visit www.tripbuildermedia.com/apps/gsa2018.

Create your schedule using the robust search technology from the Mobile App on your desktop computer available at www.geron.org/2018. Map out your event schedule and open it via your mobile device using the GSA 2018 Annual Scientific Meeting Mobile App.

ELECTRONIC ABSTRACT BOOK

A digital publication, a supplemental issue of Innovation in Aging, contains the abstracts for the GSA 2018 Annual Scientific Meeting as submitted by the authors. Abstracts are arranged numerically by session number and in the order of presentation within each session. The Abstract Book contains abstracts only; schedule details can be found in this program book. You can access the electronic Abstract Book at www.geron.org/innovateage, or on the Annual Meeting app.

SOCIAL MEDIA GUIDELINES

Although we encourage your use of social media in and around the GSA Annual Scientific Meeting, we remind you to adhere to GSA’s social media guidelines and accepted social media etiquette. Please be aware of the following guidelines when using social media:

DO

• Converse with other attendees.
• Provide feedback to GSA by tagging us @geronsociety.
• Communicate with respect, being mindful of diversity and tolerant of differences you may encounter. Keep criticism constructive and listen carefully to others to understand their perspectives.
• Tag your posts with #GSA18.

DON’T

• Use photographic or other recording devices—these are strictly prohibited in all sessions.
• Capture, transmit, or redistribute data presented at the conference—doing this may preclude subsequent publication of the data in a scholarly journal. Please do not jeopardize your colleagues’ work!
• Engage in rudeness or personal attacks.

Jacques Mohr Endowed Professorship in Geriatric Nursing

The MGH Institute of Health Professions’ School of Nursing is seeking a distinguished research scholar who will advance the integration of geriatric care into education, clinical practice, and policy as the Jacques Mohr Endowed Professor. The primary responsibilities include: sustaining a program of research in the health care of older adults; sharing expertise in the classroom, providing oversight of curricula offerings in geriatric nursing in all nursing programs; and leading the Institute’s interprofessional research and practice in gerontology and geriatrics.

The successful candidate will have access to:

- A client population in our nursing and interprofessional centers
- Nursing research foci in symptom management, informatics and big data, and population health and illness
- Interdisciplinary colleagues and researchers within Partners HealthCare
- State-of-the-art labs and research facilities
- A customized start-up package

To apply directly, please go to https://www.mghihp.edu/about-us-working-institute/search-open-positions and apply to job posting 3057091.

To learn more, please contact Dr. Lisa Wood, chair of search committee at ljwood@mghihp.edu.

The MGH Institute of Health Professions is an equal opportunity employer and is committed to enhancing the diversity of its faculty and staff. We welcome nominations and applications from individuals who would bring diversity of experience, thought and practice to the Institute’s research, teaching and clinical missions. Applications from protected veterans and individuals with disabilities are strongly encouraged.
The Gerontological Society of America gratefully acknowledges the following organizations and individuals for supporting the Society and its mission.

GSA WOULD ALSO LIKE TO THANK ALL OF THE VOLUNTEER ABSTRACT REVIEWERS.

This year, experts in aging and aging-related fields reviewed more than 4,300 abstracts. The peer-review process is a vital step in the implementation of a strong scientific program; GSA appreciates all of the reviewers’ efforts.
CONTINUING EDUCATION

This Continuing Education activity is jointly provided by the Annenberg Center for Health Sciences at Eisenhower and The Gerontological Society of America.

INTENDED AUDIENCE

This activity has been designed to meet the needs of a diverse group of professionals who are engaged in improving the lives of older adults. These professionals include the following:

- Biomedical, behavioral science, and social science researchers
- Clinicians providing care to older patients, including physicians, nurses, nurse practitioners, clinical psychologists, and licensed clinical social workers
- Policymakers, as well as advocates for elders

STATEMENT OF NEED

Gerontology is an interdisciplinary field encompassing the biomedical and behavioral and social sciences. Researchers, clinicians, and policymakers must integrate the findings from various lines of inquiry as they collaborate to solve problems through research, inform policy, develop services, revise care plans, and advocate for the needs of elders.

LEARNING OBJECTIVES

At the conclusion of this initiative, participants will do the following:

1. Identify research findings that have implications for their practice in gerontology.
2. Integrate research from multiple disciplines to improve services for older patients.
3. Collaborate with colleagues from other disciplines to shape policy, care plans, and advocacy efforts based on the best available evidence.
4. Incorporate new evidence into their professional practice.

ACCREDITATION AND CERTIFICATION

This activity has been planned and implemented in accordance with the accreditation requirements and the policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the Annenberg Center for Health Sciences at Eisenhower and The Gerontological Society of America. The Annenberg Center is accredited by the ACCME to provide continuing medical education for physicians.

- The Annenberg Center for Health Sciences at Eisenhower designates this live activity for a maximum of 24.5 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
- The Annenberg Center for Health Sciences is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center Commission on Accreditation. A maximum of 24.5 contact hours may be earned for successful completion of this activity.
- Application for National Association of Social Workers for Social Work continuing education contact hours is pending with the Annenberg Center for Health Sciences at Eisenhower.
- The Annenberg Center for Health Sciences at Eisenhower is approved by the American Psychological Association to sponsor continuing education for psychologists. The Annenberg Center maintains responsibility for this program and its content. This activity is designated by the Annenberg Center for 24.5 hours of credit. Instructional level of this activity is intermediate.

Certificates will be available online at education.annenberg.net/5581-18.

DISCLOSURE

It is the policy of the Annenberg Center for Health Sciences at Eisenhower to ensure fair balance, independence, objectivity, and scientific rigor in all programming. All faculty and planners participating in sponsored programs are expected to identify and reference off-label product use and disclose any relationship with those supporting the activity or any others with products or services available within the scope of the topic being discussed in the educational presentation.

The Annenberg Center for Health Sciences at Eisenhower assesses conflict of interest with its instructors, planners, managers, and other individuals who are in a position to control the content of CE/CME activities. All relevant conflicts of interest that are identified are thoroughly vetted by the Annenberg Center for fair balance, scientific objectivity of studies utilized in this activity, and patient-care recommendations.
The Annenberg Center for Health Sciences at Eisenhower is committed to providing its learners with high-quality CE/CME activities and related materials that promote improvements or quality in health care and not a specific proprietary business interest of a commercial interest.

In accordance with the Accreditation Council for Continuing Medical Education Standards, parallel documents from other accrediting bodies, and the Annenberg Center for Health Sciences at Eisenhower policy, the following disclosures have been made:

The faculty disclosure list can be found on page 167.

GSA Awards Program

To honor outstanding leaders in teaching and service, and to salute major advancements in research, The Gerontological Society of America (GSA) presents an annual series of awards that encompass the full field of gerontology.

The multidisciplinary aspect of the GSA membership is reflected in the breadth of the program. Several awards honor outstanding achievement in gerontology irrespective of discipline and others focus on each of the Society’s four discipline sections.

For further information on the entire scope of the awards program, visit geron.org/awards

Nominations open December 1, 2018, and continue through March 31, 2019.
GSA FELLOWS

DISTINGUISHED MEMBERS GRANTED FELLOW STATUS

This year GSA’s executive committee approved 89 individuals from 7 countries for fellow status within the Society. In addition to being honored at the Fellows and International Reception (Thursday, November 15, 7:00pm) during the Annual Scientific Meeting, they will be presented with fellow certificates and pins at their respective section business meetings and award presentations. Fellow status is peer recognition for outstanding contributions to the field of gerontology and represents the highest class of membership. This distinction comes at varying points in a person’s career and is given for diverse activities that include research, teaching, administration, public service, practice, and notable participation in the Society.

Meet us at GSA.

The Family Caregiving Institute at the Betty Irene Moore School of Nursing at UC Davis strives to support the millions of individuals who provide care to aging family members or friends. Through provider and caregiver education, along with research for best practices and methods to assist this invisible workforce, experts elevate the role of these caregivers within the larger health care system. Bold change, such as this demands, lies at the heart of the School of Nursing’s mission to advance health placing individuals, families and communities at the center.

Better Living with Dementia

Implications for Individuals, Families, Communities, and Societies

Authors: Laura N. Gitlin and Nancy A. Hodgson

Better Living with Dementia highlights evidence-based best practices for improving the lives of patients with dementia. Despite the growing prevalence of dementia throughout the world, most countries do not have well developed care systems to address the challenges dementia patients and their caregivers regularly face. This book provides an overview of dementia pathology, diagnosis, and progression, identifying care strategies for a variety of settings, to improve the quality of life for the patient and their families. The book considers the changing needs of both patient and caregiver as dementia progresses, identifying strategies throughout the progression. Case studies are provided, with recommendations for caregiver training, improvements in environmental design, and technology advances of use.

Key Features

- Offers evidence-based care strategies for supporting dementia patients
- Identifies support strategies for home, community, and health care settings
- Provides stage appropriate strategies relative to dementia severity
- Summarizes dementia pathology, diagnosis, and progression
- Considers the changing needs of both patient and caregiver
- Identifies training and competency needs of the caregiver
- Describes the role of environmental design and technology in dementia care

- Multiple Siblings’ Experiences of Their Elderly Parent’s Death: A Qualitative Analysis, M. S. Moss, S. Z. Moss
### SYMPOSIUM: A NEW OLD AGE? COHORT DIFFERENCES IN OLDER ADULTS’ PSYCHOSOCIAL FUNCTIONING

**Chair:** B. Suanet  
**Discussant:** H. Wahl  
- Cohort Differences in Age-Related Trajectories in Network Size in Old Age: Are Networks Expanding?, B. Suanet, O. Huxhold  
- Age Variations in Cohort Differences in Perceived Mastery and Constraints, J. Drewelies, S. Agrigoroaei, M. E. Lachmann, D. Gerstorf  
- Educational Homophily Within Social Networks: Cohort Effects Over Time, N. J. Webster, T. C. Antonucci, K. J. Ajrouch  
- Historical Changes in the Relevance of Partner Status as a Predictor of Loneliness, O. Huxhold, A. Böger

### SYMPOSIUM: MEETING BEHAVIORAL HEALTH NEEDS OF OLDER VETERANS: EVALUATING PROGRAMS ACROSS THE CONTINUUM OF CARE

**Chair:** M. J. Karel  
**Discussant:** Y. Conwell  
- Addressing Behavioral Health Needs of Family Caregivers and Veterans With Dementia in Primary Care, L. O. Wray, S. Mavandadi, K. B. Van Treese  
- Problem-Solving Training in VA Home Based Primary Care to Reduce Stress and Improve Quality of Life, S. A. Beaudreau, J. Wetherell, J. Funderburk, A. Aspnes, C. Maguth Nezu, A. M. Nezu, M. Karel  
- Impact of STAR-VA Intervention Across Behavioral Subtypes of Dementia, J. M. Jedele, K. Curyto, B. Ludwin, M. J. Karel  
- Using Human-Centered Design to Address the Risk of Suicide in Older Veterans After Discharge, K. Luci, M. M. Higelman, L. P. Hagemann, M. Lindsey Jacobs, M. K. Eichorst, E. Bower, K. V. Simons

### SYMPOSIUM: RESILIENCE IN OLDER AGE: BASIC, PSYCHOLOGICAL, AND COMMUNITY RESOURCES AS KEY ELEMENTS

**Chair:** D. Jopp  
**Co-Chair:** C. Lampraiki  
- Resource Perceptions and Their Correlates in Midlife and Older Age, D. Jopp, C. Lampraiki  
- Resources in Old and Very Old Age: Interactive Effects of Status, Loss, and Gain on Well-Being, F. Oswald, D. S. Jopp, R. Kasper, F. Wolf  
- Identity Mechanisms in Overcoming Social and Emotional Loneliness After Late-Life Divorce, C. Lampraiki, D. Spini, D. S. Jopp  
- Community Interventions for the Mental Health of Elderly Individuals: A Swiss Case Study, A. Ehsan, D. Spini, N. Sommet, D. Morselli

### SYMPOSIUM: WEARABLES, TRACKERS, AND DEVICES FOR MONITORING AND IMPROVING HEALTH AMONG OLDER ADULTS

**Chair:** S. Cotten  
**Discussant:** W. Rogers  
- Factors That Influence Wearable Activity Tracker Adoption and Use Among U.S. Older Adults, T. Kadylik, S. R. Cotten  
- Using Wearable Activity Trackers to Detect Differences in Free-Living, Volitional Activity, T. M. Hale, V. Guardigni, M. Vegreville, B. Brawley, E. Woodbury, T. Storer, P. E. Sax, M. Montano  
- Wearable Activity Trackers and Older Adults: Improving Health and Independence, M. Bowen, S. R. Cotton, W. Peng, A. Kononova, R. Rikard

### SYMPOSIUM: IMPLEMENTATION BARRIERS TO HONORING OLDER ADULT PREFERENCES FOR CARE AND EVERYDAY LIVING

**Chair:** K. S. Van Haitsma  
**Discussant:** A. M. Kolanowski  
- “When Will This Nonsense End?”: Barriers to Implementing the PELI Among Ohio NHs, K. M. Abbott, K. Leser, M. Liddic, J. Straker, K. S. Van Haitsma  
- “A Bone of Contention . . .”: Barriers and Situational Dependencies to Food Preferences of Nursing Home Residents, C. Goldstein, K. M. Abbott, L. R. Bangarter, A. Kottermann, K. S. Van Haitsma  
- Improving Health and Independence, M. Bowen, M. Roes, T. Stacke, J. Bergmann, D. Purwin

### SYMPOSIUM: DECLINE IN PHYSICAL RESILIENCE WITH AGE

**Chair:** S. Ukraintseva  
- In Search of Biomarkers of Resilience: Measuring Donor-Specific Responses to Stress in Cell-Based Assays, D. Il’yasova, A. Kinev  
- Biomarkers of Resilience in Murine Models, F. Sierra, F. Macchiarini  
- How Do We Recognize Physical Resilience? A Review of Markers and Measures Across Human Studies, H. E. Whitson, C. Colon-Emeric  
- Cerebrovascular Hemodynamics, Postural Stability, and Falls in Older Adults, L. K. Fitzgibbon-Collins, I. Brar, M. Noguchi, W. McIlroy, G. Heckman, R. Hughson
PAPER: SUCCESSFUL AGING
Chair: J. Montoro-Rodriguez

Chair: H. Q. Kivnick
Discussant: G. Demiris
- Vital Involvement: A Lens for Exploring Positive and Negative Implications of Gerontological AI Interventions, H. Q. Kivnick
- Use of Artificial Intelligence for Social Engagement: The Case of Embodied Conversational Agents, G. Demiris
- Can My Robot Truly Be My Friend?, J. Vanden Bosch
- Filmic Portrayals of Virtual Human Companions: A Prime Agenda for Environmental Gerontology, R. J. Scheidt
690 2:30pm-4:00pm | Beacon E (S)  SRPP
SYMPOSIUM: NEUROBIOLOGICAL AND COGNITIVE DRIVERS OF RESILIENCE TO MOBILITY DECLINE  
Chair: C. Rosano  
Co-Chair and Discussant: A. L. Rosso  
• Influence of Cognition on Change in Physical and Everyday Function Among Incident Fallers: The MYHAT Study, T. Hughes, C. Rosano, J. Beer, E. Jacobsen, M. Ganguli  
• Higher Nigrostriatal Dopamine Attenuates Gait Slowing Due to Age and Cerebral Small Vessel Disease, C. Rosano, S. A. Studenski, A. L. Rosso, A. Metti, N. Bohnen  
• White Matter Integrity Moderates the Efficiency of Prefrontal Cortex Activation Patterns During Walking, R. Holtzer, M. Lucas, M. Wagshul, M. Izzetoglu

700 4:30pm-6:00pm | 101 (CC)  HS
SYMPOSIUM: STUDYING FRACTURES IN NURSING HOME RESIDENTS USING LINKED DATASETS  
Chair: S. Berry  
Discussant: D. Kiel  
• Fracture Risk Assessment in Long-Term Care (FRAiL) Predicts Non-Vertebral Fractures, S. Berry, A. R. Zullo, Y. Lee, L. Daiello, K. McConkey, T. Zhang, V. Mor, D. P. Kiel  
• Balancing the Benefits of Bisphosphate Treatment With Risk of Adverse Events in Frail Nursing Home Residents, K. McConkey, Y. Lee, A. R. Zullo, T. Zhang, S. D. Berry  

705 4:30pm-6:00pm | 102 (CC)  HS
SYMPOSIUM: MECHANISMS UNDERLYING PHYSICAL FRAILTY IN HUMANS  
Chair: D. Melzer  
Co-Chair: J. Walston  
Discussant: G. A. Kuchel  
• Iron Overload as a Treatable Cause of Frailty: Genetic Evidence in 200,000 Subjects, D. Melzer, L. Pilling, J. Atkins, J. Tamosauskaite  
• Genetic Contributors to Sarcopenia in 200,000 Older Volunteers, L. Pilling, D. Melzer  
• Altered Frailty Metabolome Links Chronic Inflammation to Functional Decline, R. Westbrook, A. Le, J. Lovett, M. Khadeer, L. Ferrucci, R. Moaddel, J. Walston, P. Abadir  
• Circulating Cell-Free Apoptotic Mitochondrial DNA Fragments in Frail Old Adults, L. Ma, R. Westbrook, M. Davalos, H. Yang, J. Walston, P. Abadir
### 710 4:30pm-6:00pm | 103 (CC) HS

**SYMPOSIUM: ADVANCING GEROSCIENCE: NEW METHODS FOR GENOMIC EPIDEMIOLOGY OF AGING**

**Chair:** M. Levine  
**Co-Chair:** A. A. Cohen  
- An Epigenetic Clock for Aging and Life Expectancy, M. Levine, A. Lu, A. Quach, B. Chen, A. Baccarelli, E. Whitsei, L. Ferrucci, S. Horvath
- Broad-Scale, Multi-System Dysregulation of Gene Expression: Toward Clinical Quantification of Aging, A. A. Cohen, F. Dufour, P. Jacques
- A Proteomic Clock of Aging, L. Ferrucci, T. Tanaka
- Protein Signatures of Extreme Old Age and Longevity, P. Sebastiani, S. Monti, M. Morris, A. Gurinovich, D. Glass, L. Jennings, T. T Perls
- How Are Exposures That Shorten Healthspan Related to Genomic Quantifications of Biological Aging?, D. Belsky

### 715 4:30pm-6:00pm | 104 (CC) HS

**SYMPOSIUM: OBJECTIVELY MEASURED PHYSICAL ACTIVITY AND SEDENTARINESS BY OCCUPATIONAL AND EMPLOYMENT STATUS**

**Chair:** S. Stenholm  
**Co-Chair:** A. Koster  
**Discussant:** T. Harris  
- Objectively Measured Physical Activity and Sedentary Behavior Before and After Retirement Transition, S. Stenholm, A. Pulakka, K. Suorsa, J. Pentti, J. Vahtera  
- Differences in Physical Activity and Its Rate of Change by Work and Volunteer Participation in Mid to Late Life, R. Martinez-Amezcua, A. A. Wanigatunga, C. Crainiceanu, E. M. Simonsick, J. A. Schrack

### 720 4:30pm-6:00pm | 107 (CC) BSS

We are proud to honor one of our own Lewis A. Lipsitz, M.D. as this year's recipient of the Donald P. Kent Award

Throughout his distinguished career, Dr. Lipsitz has made groundbreaking contributions to geriatric medicine, serving as an advocate for the need to expand the ranks of geriatricians and gerontological researchers. Beyond these accomplishments, he continues to steward the Institute for Aging Research at Hebrew SeniorLife to its leadership position in research devoted to transforming the experience of aging for older adults nationwide and around the world.

MAXWELL A. POLLACK AWARD RECEPTION  
Coffee and bagels will be served at 7:00am. The award presentation and lecture will begin at 8:00am.

7:00am-8:00am | Back Bay C (S)  
💡 ESPO BREAKFAST AND COMMUNITY MEETING  
All ESPO members are welcome and encouraged to attend this informational breakfast meeting, which will provide an opportunity to review the year’s activities, honor ESPO volunteer leaders, recognize ESPO award recipients, transition ESPO chairs, and participate in breakout tables. This event is a great way to learn about how to get involved in ESPO leadership, meet your elected leaders, network with colleagues, support research by fellow ESPO members, and engage in discussions tailored to your current stage and needs as an emerging scholar.

8:00am-9:30am | 101 (CC)  BSS  
PAPER: EMPLOYMENT OVER THE LIFE CYCLE  
Chair: J. M. Wildman  
- Employers’ Adjustment to Longer Working Lives, J. Oude Mulders, K. Henkens

8:00am-9:30am | 102 (CC)  BSS  
SYMPOSIUM: VERY OLD PARENTS AND THEIR OLD CHILDREN: A GROWING AND GLOBAL PHENOMENON  
Chair: K. Boerner  
Discussant: K. Pillemer  
- Supportive Reciprocal Relations in Very Old Caregiving Dyads: Findings From Portugal, O. Ribeiro, D. Brandão, L. Araújo, C. Paúl  
- Intergenerational Relationship Dynamics of Very Old Parents and Old Children in Korea, G. Han, J. Kim

7:00am-6:30pm | Berkeley (S)  
앎 ESPO LOUNGE  
The ESPO Lounge at the Annual Scientific Meeting provides a place for GSA’s emerging scholars to rest from the hectic conference pace, network with fellow ESPO members, meet with colleagues, enjoy refreshments, and check e-mail on the computers provided in the lounge. Back by popular demand are ESPO’s informal chats! ESPO will again host several informal chats focused on academic jobs, dissertations and writing, Butler Williams Scholars, international scholars and interests, and lifelong learning. Please stop by!

7:00am-9:00am | Salon ABC (M)  
ANNUAL MEETING OF THE NATIONAL ASSOCIATION FOR GERIATRIC EDUCATION (NAGE) AND THE NATIONAL ASSOCIATION OF GERIATRIC EDUCATION CENTERS (NAGEC)

PRESIDENT’S OPENING PLENARY SESSION
Keynote speaker, Thomas R. Cole, PhD, FGSA, is the McGovern Chair in Medical Humanities and director of the McGovern Center for Humanities and Ethics at The University of Texas Health Science Center at Houston.
Gerontologists study aging for many reasons including to solve problems. We want to know how to live longer and healthier lives, how to take care of older people who are ill or frail, and how to frame policies and programs that improve quality of life. While we celebrate our success in these areas, it is easy to forget that aging itself is not a solvable problem, although research suggests its impact can be slowed. Aging is still a mystery—a universal element of the human condition. When we get to the edge of scientific knowledge, we need to ask not only how but why we age and what the meanings and purposes of aging are or should be. Longevity alone is not an answer. In search of a more robust gerontology, this address will offer historical, cultural, and spiritual perspectives that bear on clinical work, social research, and personal experience.

11:00am-2:00pm | Exhibit Hall C Foyer (CC)
INNOVATING TO IMPROVE COMPLEX CARE—SENIOR CARE OPTIONS (SCO) PROGRAM/COMMONWEALTH CARE ALLIANCE (CCA)
Educational Site Visit • Separate registration is required.
CCA is a not-for-profit, community-based health care organization dedicated to improving care for individuals with complex medical, behavioral health, and social needs. Our organization’s unique interprofessional teams provide and coordinate a full spectrum of health services to address our members’ needs and minimize gaps in care. During this visit, you will meet members of our team and learn more about our model of care. Gather at Registration at 10:45am, then proceed to bus near the Boylston Street entrance of Hynes Center.

11:15am-12:00pm | Ballroom ABC Foyer (CC)
RELAX WITH THE THERAPY ANIMALS
Visit therapy animals and their handlers, volunteering through Pet Partners, for a quick round of relaxation before heading into sessions. GSA members of the Human-Animal Interaction Special Interest Group will be on hand to answer any questions about the latest research on companion animals and older adults.

THE ACADEMY FOR GERONTOLOGY IN HIGHER EDUCATION (AGHE): A REFRESHED ORGANIZATION POSITIONED FOR INCREASED IMPACT
The Association of Gerontology in Education (AGHE) has completed a multi-year strategic planning process and has been transformed into a new organization: the Academy for Gerontology in Higher Education. This transformation, which includes AGHE’s integration with GSA, provides opportunities for AGHE members to broaden AGHE’s reach and impact through collaborations with GSA sections, members, and interest groups, as well as contribute to the Society’s education mission. Stop by to learn more about the new AGHE, share ideas about collaboration and explore ways to become involved.

THURSDAY NOV 15

74  GSA 2018 ANNUAL SCIENTIFIC MEETING | PROGRAM
**SYMPOSIUM: OLDER TRAUMA-EXPOSED MALE AND FEMALE VIETNAM VETERANS: CLINICAL ISSUES AND INNOVATIONS**

**Chair:** P. Bamonti  
**Co-Chair:** K. O’Malley  
**Discussant:** E. H. Davison

- The Impact of Military Stress Exposures on Health and Functioning in Vietnam-Era Women Veterans, B. N. Smith, A. Spiro, K. M. Magruder  
- Combat-Related Trauma Re-Engagement in Aging Vietnam-Era Veterans: Correlates of Positive and Negative Outcomes, C. Brady, A. Pless Kaiser, E. Davison, A. Spiro  
- Later-Adulthood Trauma Reengagement Group With Vietnam Veterans With PTSD: What We Learned, What Comes Next, K. O’Malley, P. Bamonti, A. Pless Kaiser  
- Memory Skills Group for Older Veterans With Cognitive Concerns and PTSD, E. H. Trittschuh, C. J. Tyrrell, J. B. Shofer, S. Thielke

**SYMPOSIUM: THE DECLINE OF PROTEOSTASIS IN AGING**

**Chair:** A. Cuervo

- Selective Autophagy: Can We Target It to Extend Health-Span?, A. Cuervo  
- Autophagy and Aging: Lessons From Long-Lived C. elegans, M. Hansen  
- New Insights Into the Proteasome Function and Degradation of Misfolded Proteins, A. Goldberg, S. Lokireddy, H. Kim, C. Kuo, J. VerPlank  
- The Proteasome and the Biology of Aging, D. Finley  
- CPNE2: A New Regulator of Lysosomal-Mitochondrial Function Involved in Aging and Disease, G. Coppotelli, J. Ross, A. Ling, K. Kim, D. Sinclair  

**SYMPOSIUM: INTEREST GROUP SESSION—AGING WORKFORCE: EMPLOYMENT HISTORY, RETIREMENT TRANSITION, AND HEALTH DEVELOPMENT**

**Chair:** S. Stenholm  
**Discussant:** H. Westerlund

- Changes in Cognition During Retirement Transition: The Whitehall II Cohort Study, B. Xue, D. Cadar, M. Fleischmann, S. A. Stansfeld, E. Carr, M. Kivimäki, A. McMunn, J. Head  
- Changes in Health and Health Behaviors During Retirement Transition by Socioeconomic Status, S. Stenholm, J. Halonen, T. Oksanen, J. Pentti, M. Kivimäki, J. Vahtera  
- The Relation Between Work Characteristics and Health After Work Exit in Low and High Socioeconomic Groups, S. de Breij, D. Holman, J. Yogachandiran Qvist, D. J. H. Deeg  
- Critical Employment Histories and Health and Well-Being in Later Life, P. Zaninotto, M. Währendorf

**SYMPOSIUM: MARGRET M. AND PAUL B. BALTES FOUNDATION IN BEHAVIORAL AND SOCIAL GERONTOLOGY AWARD LECTURE**

- Mental Health Disparities Across the Adult Lifespan, G. Kim

The Margret M. and Paul B. Baltes Foundation Award in Behavioral and Social Gerontology Lecture will feature an award presentation and lecture from the 2017 recipient, Giyeon Kim, PhD, as well as a presentation to the 2018 recipient, Frank J. Infurna, PhD, Arizona State University. The Baltes Award recognizes outstanding early-career contributions in behavioral and social gerontology. Supported by the Margret M. and Paul B. Baltes Foundation.

HUMANITIES AND THE ARTS COMMITTEE EVENT:
SWANSONGS WITH JOHN ZEISEL AND THE LONGWOOD SYMPHONY ORCHESTRA
No fee, but separate registration is required. Swansongs is a live program of musical performance and reflections on caregiving and living with Alzheimer’s disease, a key age-related syndrome. Developed by John Zeisel, an architect and a specialist in Alzheimer’s care, along with the late Paul Robertson, founder and principal violinist of the Medici Quartet, the program navigates the journey of a family living with a loved one who has dementia. Swansongs addresses the deep emotional challenges of dementia caregiving through musical metaphors. The music exemplifies various aspects of the joys and challenges of dementia care from the perspective of the patient, the family, and the community. This multi-perspective view of dementia has been illuminated by Dr. Zeisel, whose experience in Alzheimer’s care spans more than 30 years. Members of the Longwood Symphony Orchestra, the orchestra of Boston’s medical community, will perform. This performance replaces the usual Humanities and Arts Committee film in order to showcase local nonprofit partners in the ongoing work of humanizing care for people with dementia.

MENTORING CONSULTANCIES FOR EMERGING SCHOLARS

No fee, but separate registration is required.

The mentoring consultancies bring students and junior faculty members together with senior faculty, experienced researchers, and GSA leaders to discuss a variety of topics. Each table will have an assigned mentor to discuss and share experiences about job searching, publishing, finding and applying for funding, navigating the tenure and promotion process, and achieving success as a mentee or mentor. The consultancy provides each participant the opportunity to move from table to table to develop problem-solving strategies and enhance professional and career development. This roundtable format reinforces the idea that when people face a challenge together, the answer is already in the room.

**FIRESIDE CHAT WITH ASSISTANT SECRETARY FOR AGING AND ADMINISTRATION FOR COMMUNITY LIVING ADMINISTRATOR LANCE ROBERTSON | Back Bay D (S)**

**Moderator:** Brian W. Lindberg  
**Panelist:** Lance Robertson  
The Older Americans Act and the Elder Justice Act, administered by the Administration on Aging under the Administration for Community Living, are due for reauthorization. The revisiting of these acts will take place in the context of a new Congress, tight budgets, a growing demand for services, an evolving aging network, and a changing delivery system for long-term services and supports. This session will provide an opportunity to discuss these critical issues with Lance Robertson, who has spent his career advancing gerontology, serving older adults, and building coalitions. Robertson will share his perspective on how evidence-based information can help make the case for high-quality programs serving older adults.  
Supported by The Gerontological Society of America’s Public Policy Committee.

**MAKING THE MOST OF LONGER LIFE: LESSONS FROM AND FOR THE FIELD | Constitution B (S)**  
**Moderator:** Debra Whitman  
**Panelists:** Thomas Perls, Jay Olshansky, Cheryl Woodson  
We live in an age of contradictions. The massive race to find the technical, medical, and biological miracle interventions that will combat the aging process is juxtaposed with our knowledge that in many parts of the developed world, the potential for a human lifespan beyond 100 years already exists. We also know that for many people, disparities in race, income, and geography put increased longevity out of reach. In this session, we will discuss the science of longevity and the mindsets needed to actively pursue a healthier and longer life.  
Supported by AARP and its Disrupt Aging program.

**LEVERAGING IMPROVED VACCINE TECHNOLOGY AND THE HEALTH CARE TEAM TO PROTECT OLDER ADULTS | Republic B (S)**  
**Moderator:** Kevin O’Neil  
**Panelists:** Janet McElhaney, Stefan Gravenstein, April Green  
This session will explore the exciting developments in vaccine technology and review the underappreciated benefits of vaccination. In addition, we will share evidence-based strategies that health care teams can use to help raise immunization rates, with the goal of preventing disease and its complications in older adults.  
Supported by Pfizer, Merck, Sanofi Pasteur, and Seqirus.
The year 2018 marks the 100th anniversary of the outbreak of Spanish flu. The deadly influenza pandemic infected some 500 million people and resulted in deaths of between 50 and 100 million people. Since then, the world has seen significant investments in public health, clean water, and vaccination. We are, however, witnessing increasing warnings that we are becoming complacent about the impact of the flu and other infectious diseases. There are fears that the world may be on the brink of another infectious disease pandemic. During this policy roundtable, the International Longevity Centre–UK will facilitate a discussion about what lessons can be learned from public health over the past 100 years. The debate will focus on what policymakers throughout the world could do to ensure the mitigation of risk for future pandemics. ILC–UK will be organizing similar debates in Toronto, London, and Brussels before producing a consensus statement and a short report aimed at global policymakers.

11:30am-1:00pm | Section Business Meetings and Award Presentations
Separate registration is required for lunch.
Join your colleagues at the section business meeting to celebrate award recipients and our newest fellows. This event also offers a great opportunity to discover how to get involved in section activities. The fee includes lunch; however, limited general seating is available for those who want to listen and not purchase a meal. Lunch is served at 11:30am and the presentation begins at noon.

The Conference Series on Aging in the Americas (CAA) is hosting an advisory group meeting and reception. The international (ICAA) meetings, funded by the NIA R-13 grant, include a lecture and a dinner on the first day of the meeting, followed by 2-day scientific sessions aimed at increasing knowledge about healthful aging in the older Hispanic population in the United States and Mexico. Previous ICAA install-ments have had a distinctive focus, and each has resulted in peer-reviewed books and special journal issues. Emerging scholars have been given ample opportunities to present their work as oral presentations and in poster sessions, and to participate in mentoring sessions with senior scholars. All are welcome to attend.

Enriching Time
Advancing perspectives, innovation, and practice for healthy aging

GSA is honoring the process of aging by inspiring and cultivating evidence-based interdisciplinary research, practice, and education across the life course. Our membership is composed of 5,500 members from all branches of gerontology: biologists, health professionals, policymakers, behavioral and social scientists, and other age studies scholars and researchers. We believe the intersection of information from these diverse areas is the most effective way to foster ingenuity, achieve demonstrable results, and promote healthy aging. A primary part of our commitment involves translating and disseminating research findings, recommendations, and ideas through respected scholarly journals, popular media, and our Annual Scientific Meetings convening 4,000 professionals from around the world. Through networking and mentoring opportunities, GSA encourages global interaction between career gerontologists and students at all levels.

MOMENTUM DISCUSSIONS
10:00am-11:00am
THE ROLE OF THE HEALTH CARE COMMUNITY IN SOLVING SOCIAL ISOLATION | Back Bay B (S)
Moderator: Lisa Marsh Ryerson
Panelists: Sheila K. Shapiro, Leigh Ann Eagle
The dire health consequences of social isolation (equivalent to smoking 15 cigarettes a day) have made it a major public health issue. This dynamic discussion will involve a multi-perspective dialogue around national strategies for combating isolation in older adults, with a specific focus on the scalability and sustainability of solutions and the need for collaboration with the health care community. The aim will be to shed light on social connectedness as a social determinant of health. Supported by AARP Foundation.
OLDER ADULTS AND CANCER: BUILDING THE RESEARCH AND CLINICAL CARE INFRASTRUCTURE FOR AN AGING POPULATION | Back Bay C (S)
Moderator: Harvey Cohen
Panelists: Harvey Cohen, Elana Plotkin, Peggy Burhenn

As a result of improvements in treatment and supportive care, the number of older cancer survivors is increasing, including many with comorbid conditions that complicate treatment plans. Frequently, because of the lack of research into the care of older adults with cancer and comorbid conditions, clinicians find themselves unprepared to assess and manage these complex patients. Older adults are often underscreened for cancers, the conditions are understaged when they are found, and treatment is often less aggressive than in younger individuals or not provided at all. This session will examine the relationship between aging and cancer, as well as ways that cancer research, prevention, and care can be improved for older adults.

INSIDE INNOVATIVE TECHNOLOGIES: OUTWIT, OUTLAST, AND OUTLIVE—THE ROLE OF ARTIFICIAL INTELLIGENCE AND DATA TO DRIVE INNOVATION IN AGING | Constitution A (S)
Panelists: Vincent Mor, Heather Ames, Peri Tarr

Machine learning, artificial intelligence, and deep neural network techniques have a profound potential to unlock learning, discover new hidden clues in large datasets, and offer predictions to enhance human health, performance, and experience of aging. Panelists will discuss techniques, research, and benefits of using these technologies to explore aging.

CLINICAL TRIALS AND OLDER ADULTS—STRATEGIES TO DRIVE OLDER ADULT PARTICIPATION | Republic B (S)
Moderator: Stephanie A. Studenski
Panelists: Jay Magaziner, Roger Fielding

Patients enrolled in a clinical trial should be representative of the types of patients who are likely to use the medical product. Certain populations can be more at risk for certain diseases—such as diabetes and heart disease—than others. So, it is important for patients in those populations who are more likely to be treated for a condition to be included in a trial. Experience has shown that there can be important differences in how people of diverse groups respond to medical products. This session will provide an overview of key methodological approaches to clinical-trial design for inclusion of older adults and diverse populations.

INSIDE INNOVATIVE TECHNOLOGIES: AUGMENTED BODIES AND REALITIES
Moderator: George Marmaropoulos, SharkNinja
Panelists: David Putrino, Mt. Sinai Health System; Danny Shen, Eargo; Nan-Wei Gong, figur8 Inc; Owen McCarthy, MedRhythms

Artificial limbs that interface directly with the human body are now a reality, but not everyone is ready for this degree of bionic upgrade. Panelists will represent a host of new solutions to augment the aging body or leverage its plasticity and capacity for healing—ranging from assistive robotics for stroke recovery to tapping virtual reality and music to change the brain’s perceptions, allowing recovery from spinal injury or improvement in gait for individuals after a stroke or those with Parkinson’s disease.

Moderator: Jennifer Jordan, PickAxes & Shovels
Panelists: Leonard Guarante, Elysium Health; Gil Blander, InsideTracker; Silvia Caballero, Vedanta Bio; Manny Simmons, Akouos

Some researchers posit that as we continue to unlock the mechanisms of aging, we might reach a point when it is not necessary to age. In the meantime, new datasets allow us to strive for biometrics and bodies that present younger than our chronological age. Genomic research and therapies seek to give our younger cells and improved hearing, and biomic research suggests that the symbiotic relationship of us younger cells and improved hearing, and biomic age. Genomic research and therapies seek to give bodies that present younger than our chronological new datasets allow us to strive for biometrics and the mechanisms of aging, we might reach a point

Dr. Gillian Matthews’s research in the Tye Lab of the MIT Picower Institute has helped unlock the brain’s response to social isolation. Entrepreneurs are applying technologies—ranging from artificial intelligence that recognizes emotion, to robotics, to voice applications, to virtual reality for experiencing family and travel—as substitutes or enhancements to ameliorate solitude. Will these be rich or poor alternatives? Can we leverage technology to scale for lower-tech, more human solutions?

Join us for one of GSA’s most popular events and head on over to nearby Wally’s Café, Boston’s cozy, old-school jazz and blues club since 1947 for performances by students from the famous Berklee School of Music, local musicians, and maybe a little 1950s West Philly a-capella!
Wally’s Café, 427 Massachusetts Ave., Boston
Group cabs and transportation from the Sheraton lobby will be arranged. Potential cover charge at Wally’s Café.
Some things just don’t fit the way they used to.

And your patients may not realize that could matter to their health. Their age, changing health conditions, and medicines they take can increase the risks associated with certain over-the-counter (OTC) pain relievers.

Send your patients to GetReliefResponsibly.com

They’ll find an easy-to-understand comparison chart to help them choose and use OTC medicines safely.

The Panel Study of Income Dynamics (PSID) is the world longest running national household panel survey.

The Panel Study of Income Dynamics (PSID) is the world longest running national household panel survey. Begun in 1968, the study has collected 40 waves of data on approximately 11,000 families and their descendants over a period of five decades.

A national resource for studying health and aging
Although initially a study of family income, the PSID has become a national resource for studying health and aging. The study has followed members of the Baby Boom generation over most of their adult life. Because PSID follows descendants of original sample members, the study is also a unique resource for studying intergenerational transmission of health, economic wellbeing, and intergenerational transfers.

Examples of Health Content in PSID
Health Behaviors
Health Care Utilization
Disability
Health Conditions and Medication Use
Health Insurance & Expenditures
Health Status in Childhood
Mortality Information (under restricted data contract)

What's new? Recent supplements have expanded content on disability, time use, intergenerational transfers, childhood circumstances, wellbeing, & cognitive ability.
